## WHO WE ARE

Global Publishing Solutions (GPS) is the Department's newly transformed in-house publishing and pre-media organization and the winner of the Department's largest A-76 Competitive Sourcing competition. We prevailed against bidders from both public and private sectors. A rigorous specification and evaluation process resulted in the award of a ten-year contract to us in 2007. As a result, we put forth an innovative plan to better meet the needs of the Department, and ultimately, your mission.

We can support your mission with a wide range of services, including:

- Traditional High-Quality Printing and Publishing,
- Graphic Design,
- Copier Services,
- CD-ROM Replication,
- Document Scanning and Asset Management,
- Optical Character Recognition (OCR) Services & Deployment,
- Web and Multimedia Design, and
- Online Business Cards and Certificates.
